It is not commonly known that a large proportion of the rheumatism and neu-ralgia extant is traceable directly to the diseased condition or imperfect action of the kidneys and liver; therefore a remedy which cures the resulting disease must have found and smitten the first cause. Many persons using Athlophoros for rheumatism and neuralgia have been surprised to find that chronic disorders of the liver and kidneys have also been greatly relieved and they have written for an explanation. The fact is, that the remedy acts directly on these organs, cleansing them from all irritating sub-stances and regulating their action. PERHAPS NO LOCAL DISEASE has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal, it is among the most distressing, nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the multitudes of modes of treat-ment until the introduction of Ely's Cream Balm a few years ago. The success of the preparation has been most gratifying and surprising.

Simmons Liver Regulator cures malaria biliousness, dyspepsia, headache, constipation and piles. It is most effective in start ing the secretions of the liver, causing the bile to act as a purge. When there is an excess of bile in the stomach, the Regula-tor is an active purge, after the removal of the bile it will regulate the bowels and impart vigor and health to the whole system. "The Devil and the Deep Sea."

The old story of the poor soul who was caught between "The devil and the deep sea," gets a new illustration from the dealing of doctors and drugs with malaria. The story is soon told: "My daughter," said a lady, "had been struggling with malaria for four years. She was all the time out of health-poor appetite, disordered digestion, pale earthy color, pain in the head, limbs and back, and every now and then a right hard chili, followed by fever. Then we would send for our doctor and he would prescribe quinine, just as he did from the first—and so kept doing all along—until the name of quinine sounds like the tolling of the bell. Clearly between the two, her health was being ruined and her very life in peril. She was really between 'The devil and the deep sea.' Sometimes the name is varied, and it is called some other 'ine' in place of quinine, but it is all the same—the old firm with a new sign. In this dilema a lady friend said: 'Why not try Humphrey's Homeopathic Specifics, Nos. Ten and Sixteen.' I tried them. They were a success from the first, and not only cured the malaria, but restored her to perfect health, and left no trace of disease or drug poisPASTEUR

METROPOLITAN

Clare, of Newark, N. J.

There is no end to tell: I left no tears in those dark eyes, Although I loved them well; Her picture hangs within my brain Fresh and imsulfied yet; No empty vows of mine shall pain The heart of true Ariette

The day is spent, and fields, new shorn, Are bright with fading sheen: Like blossoms left behind the corn,

The maidens come and glean: Blue eyes and floating locks of gold

You never knew Ariette

I net her when this life of mine

Had turned from sweet to sour:

The grain was gone, the reagers flown, When first I found Arlette.

A fashionable fame; How came she with that southern skin,

We talked, I questioned, she repiled,

or bitter thoughts and angry pride All fled before Ariette.

How ends the tale? To your surprise
